TC/M Report:

- We have to look into doing something different for Christmas at the park because we spent more than $1500 on lights that only lasted a day or so and now several of our figures are burned or broken.

- We have only received one resume for the Recreation Director and none for the assistant position. The deadline is this coming Friday.

- Management from Tizzards have approached us to do something for them regarding the disposal of the cardboard. I have contacted Premium Waste for him and have some information to provide him. I have left a message for him to come speak with me about it at his earliest convenience.

- Our most senior casual call in would like to remain on the call in list during her down season. She will be filling in for Emily while she is on vacation.

- We now have the loader fixed again but a technician had to come from town again to work on it.

-TC/M is to make sure this work was not related to the prior work just completed and could possibly be covered by warranty.

-Council needs to call a meeting and discuss the Park Christmas decorations as soon as possible to have time to prepare.

-TC/M is to stand by the previous motion regarding the casual call in and accept her resignation as the off season is not when we need someone the most and it would not be beneficial.

-TC/M is to address the situation of the ambulance garage lights with the town foreman prior to calling an electrician.

-Donavon from NL Health said he was going to send someone to try and move the Starlink to a more beneficial location.

-S.Regular needs confirmation on Old Perlican business information for the new website, as well as forms from the office.

-It has been decided to only list Old Perlican business on the website at this point.
